INFORMATION DISCLOSURE STATEMENT

Sir:

In accordance with 37 C.F.R. § 1.97, Applicants submit the references listed on the attached PTO 1449 Form in the above-referenced Application. The submission of this statement is not a representation that a search has been made, or that no better or other relevant art exists. This submission is also not an admission that any of the cited references is, or is considered to be, material to patentability or that any of the cited references constitutes prior art to the invention. Moreover, the Applicants understand that the Examiner will make an independent evaluation of the cited publications.

Copies of the references listed on the attached PTO 1449 Forms which were submitted to and/or cited by the Patent Office in the parent application Serial No. 08/600,483, filed February 12, 1996, from which the above application claims priority, are not enclosed pursuant to 37 C.F.R. § 1.98(d). However, copies can be provided upon request.

It is respectfully requested that the information above be expressly considered and that the publications be made of record therein by the Examiner's initialing and returning the attached PTO 1449 Form in the next communication from the Patent Office. In addition, Applicants request that the above information appear among the "References Cited" on any patent to issue from the Application.

As this paper is being filed together with a Request for Continued Examination, no fee is believed to be due. However, in the event a fee is due, the Commissioner is authorized to charge any fee deficiency or credit any overpayment to Deposit Account No. 08-0219.

Respectfully submitted,
HALE AND DORR LLP
